RE: Saad-Nashville, Superfund site # 19-533, Davidson Co.,  
TN.

Dear Mr. Outhier:

The soil investigations conducted by the Tennessee Division of Superfund, in cooperation with Region IV EPA, have been completed. We have found no evidence of soil contamination extending from the Saad site onto the 4 acre parcel located at 3652 Trousdale drive (Where Custom Coach leases property). However, the ground water investigation for the site has not been initiated and may be expanded off-site.

If you should require any further information, please contact me at 741-7391.

Thank You

  
~~Christopher E. Greene~~  
Project Manager  
Nashville field office,  
Div. of Superfund
